Dear John:

With reference to your memorandum of March 19,
being a proposed recommendation for state insurance program
proposed by the New Hampshire Association of Insurance Agents,
I find myself in disagreement with your conclusion.

I have grave doubts as to the constitutionality
of limiting the state's right to contract with anyone else
except the Association of Insurance Agents for this insurance.

Frankly, I do not believe it is legally permissible
either as a matter of administration, as you suggest, or even
by legislation.

I will be glad to discuss this with you at any
time.

Very truly yours,

George F. Nelson
Assistant Attorney General
